

**• FOR ELECTRICIANS, HEATING INSTALLERS, KNX / LOXONE INTEGRATORS AND INSTALLERS****Focus on your trade. We take care of the technology.**

casasmooth equips new builds and existing buildings alike, with or without a bus — an existing KNX, Loxone or Wiser by Feller project is imported as it is. The electrician equips the apartment, the heating installer the basement: **casasmooth connects the two** — solar, heat pump and EV charger through the supported protocols (Modbus, SmartGridReady).

**You bill your trade**

- Consulting, hardware, installation, workmanship — **at your prices.**
- Your margin and your site relationship stay yours.

**We operate the platform**

- The subscription covers operations: support, updates, backups.
- You are never the support of last resort.

**Annual commission**

- An **annual commission** rewards the active fleet you bring.
- Detected extensions are sold and installed **by you.**

**YOUR TECHNICAL BACK OFFICE · WHAT THE PLATFORM DOES FOR YOU****1 · PROJECT****New or existing**

The home survey — or the existing KNX, Loxone, Wiser project — becomes the configuration.

**2 · CONFIGURATION****Automatic generation**

Automations, dashboards and settings are generated, not hand-coded.

**3 · COMMISSIONING****Traceable validation**

Every adjustment — from the client or from you — is recorded, applied and verified.

**4 · DAY TO DAY****Continuous operations**

Analysed logs, current rules, backups, new devices supported continuously.

**OPEN PLATFORM · ADD WHAT YOUR CLIENT ASKS FOR****READABLE****Named and documented**

Every device has a clear name, the documentation writes itself.

**OPEN****Connectable**

The installation exchanges data with other software — management systems, video intercoms...

**STANDARDS****Matter, Zigbee, Z-Wave...**

Market devices connect through open standards, whatever the brand.

**AI****AI assistants**

You talk to the home in plain language — to ask or to act.

**WHAT YOU NO LONGER LOSE — THREE LOSSES DISAPPEAR FROM YOUR MARGINS****SERVICE****Free after-sales work**

Problems are spotted and fixed remotely, often before the client calls.

**TAKEOVER****Orphaned projects**

A KNX or Loxone installation without an available programmer becomes maintainable again — and the job is yours.

**LOYALTY****Clients who drift away**

Supporting new devices is our job, not yours. Your client stays loyal.

**YOUR FLEET WORKS FOR YOU****Present at your client's home for the long run — and your fleet talks to you.****Installer card**

in the client's app

**Fleet report**

failures and batteries

**Interventions**

billable visits
