• PARTNER SHOWROOM · 145 DEVICES IN 2 ROOMS

casasmooth can be visited.

In our partner showroom, casasmooth is not a brochure: it is a space where everything works. **145 devices concentrated in two rooms** — lights, cameras, detectors, sensors, audio — a living catalogue where you touch, trigger and compare, in real conditions.

Hands on

- Every function is triggered in front of you — no video, no promise.
- Lighting scenes, presence detection, cameras: for real.

The density of a test bench

- 145 devices and 452 measuring points across two rooms — the highest density in the fleet.
- Market hardware side by side, on a single platform.

At a partner's

- The showroom lives at a partner's — proof that the platform can be exhibited and sold by third parties.
- A model to replicate for every partner who wants to show rather than describe.

WHAT YOU DEMONSTRATE IN A FEW MINUTES

LIGHT

Scenes and moods

The mood changes with one gesture — or by itself, following presence.

PRESENCE

14 detectors

The room knows you enter — and everything reacts immediately, locally.

SECURITY

3 live cameras

Video mosaic and useful alerts, on site and on the phone.

MEASURE

452 sensors

Temperature, energy, air, movement — everything is measured and displayed.

THE SHOWROOM IN NUMBERS

Measured on the installation in service.

145

devices on demonstration

2

rooms — maximum density

452

sensors and measuring points

24/7

in operation since February 2026

Visits by appointment — come trigger, touch and compare: that is what the showroom is for.

Want to see it live?
